

ABOUT

Jeanette models her handcrafted woodworking after the circular economy and uses reclaimed and repurposed materials. She strives to inspire the infinite possibilities of upcycling by celebrating the true beauty in perfectly imperfect castaway materials.

Coldwell Creations current collection of minimalist inspired wooden vases hold water with a concealed glass vessel intended to bring the outdoors in sustainably with a seasonal cutting that suits your style and compliments your natural environment.

WOOD INFO

- sourced wood is repurposed making each vase unique in grain + measurement
- every vase has a minimum of two finishing coats
- common wood species used: ash, walnut, oak, cedar + fir, acacia + hemlock less so
- each piece of wood is cut, drilled, shaped, sanded, grain is raised, sanded again + sealed
- there are multiple steps + tools to create each vase: chop saw, band saw, table saw, jig saw, drill press, drill gun, belt + orbital sander

WRAPPING

- remove greenery/water from the glass vessel if applicable
- wrap in 1- 3 layers of tissue and please include a plant care + biz card
- leather stains if it gets wet so let your customer know to take care regarding this
- include display medium for each wall vase as required

PRICING

- listed prizes are in retail
- the below includes the “staple” line up of vases, bestsellers are listed among them while one-of-a kind + unique shapes are not

FORM + FUNCTION

- each corner is rounded for softer edges while maintaining clean lines
- glass vessels range in size from .5 to 1.25" wide and 3 to 5" tall and are selected to work with the wood type/dimension/grain orientation

LIVING WALL INSTALLATION

- propagation wall vases can be installed as a feature wall in your store/business
- 9 vases for a feature wall as a starting point is recommended; however 6 in a smaller space can have just as big of impact, especially if the vases are spread 6-12" apart horizontally and 12" vertically
- living wall installs with a horizontal measurement larger than 3 feet wide are recommended to position vases 12" apart both ways so not to clutter the greenery
- swap out plant propagating clippings with forest floor finds, seasonal outdoor clippings or even dismantle a bouquet with each vase holding a sprig/flower from the bouquet
- tips + tricks for wall installs included with purchase
